

# EXIT TICKET – Responses and Comments

HEATH LOCAL SCHOOLS  
Facilities Planning Committee  
October 10, 2018

Which of the following could you support?

(choose one from each group below)

**2** Renovate Stevenson and Garfield

- I believe we need to build a new K-5 elementary

**30** Build a new combined K-5 Elementary

(choose one from each group below)

**20** Renovate the Middle School now

- After elementaries but with this round of money
- Would need to know how much we are willing to renovate, there are lots of needs
- If we renovate HMS where will those classrooms under construction relocate to?
- Would have to be substantial
- Renovate middle school to the bones (I could be talked into new build)

**3** Renovate the Middle School at a later date

**13** Build a new Middle School

- If not too much on voters
- If we build HMS new where would we educate kids?
- That is still attached to the high school
- I like the thought of a new MS but my thought of a rebuild is because of not having a good location

(choose one from each group below)

**20** Renovate the High School now

**11** Renovate the High School at a later date

- If we must push it back
- If this is feasible to taxpayers or a dream?
- Renovate the high school when MS is being built

Any additional general comments you would like to share, please note below:

- Loaded answer...as much as can be supported
- Would like to have finance committee provide some idea of \$ impact on top 1-2 options on voters
- No discussion about the admin building. Too small except for Dr. Thomas office. Lack of privacy
- More details about phased construction please, timeline, student locations during construction
- When building new middle school could education be moved to elementary building after new PK-5 building is built? Or could a space be rented to hold classes?
- I believe we need to build a K-5 elementary
- Fix roof on high school
- \$13.99 on 100k home
- Renovate MS or new build MS
- Where would the middle school go during reno or build?
- Can the HS stay during MS reno/build?
- So many options....
- Could we have these meetings at different buildings to better allow people to see the buildings?
- Could you think about giving the group a tour of buildings? Perhaps organize meetings at all of the buildings
- Why not put HMS to K-5 site; reconfigure grade levels; K-7, 8-12 buildings? 5-7 wing?
- Tour of HMS is needed
- Would like the breakdown of building a new MS and renovating elementaries
- I would like a tour of the middle school with the talk of how many kids are in the rooms typically throughout the day
- Administrative building; most areas are too small. No waiting area. no privacy
- This is a big project for Heath
- Not much to build in Heath
